

# History of Carr Lane Mfg.

The idea that became the basis for Carr Lane Manufacturing came to Earl & Myrtle Walker in 1952, when they saw an ever-increasing need for standardized parts.

Today, innovations continue at Carr Lane Manufacturing. Now managed by Walker's daughter Nance Frost (CEO) and her son Colin Frost (President), Carr Lane continues to bring the best in the manufacturing tooling industry to its customers.

# Careers

## Positions Include:

### Machine Operator

- Their primary responsibilities are to operate and monitor machines during production to ensure optimum productivity and adherence to the production schedule.
- Ensuring that the machines are producing quality products by performing an in-process inspection of machine output. As well as execute regular and preventative maintenance procedures including cleaning machines and work area daily.

### CNC Machinist

- CNC Machinists are primarily responsible for the setup and operation of CNC production equipment using standard concepts, practices, and procedures. They are also responsible for minor programming modifications to ensure that productivity and quality goals are achieved.
- These employees rely on experience and judgment to plan and accomplish goals as well as execute regular and preventative maintenance and cleaning procedures. Candidates must have knowledge and experience with precision measuring tools. They must also have knowledge of mill and/or lathe machines.

### Warehouse Associate

- The Warehouse Associate assists us in preparing orders for shipping. This position checks boxes for damage, and confirms correct items and quantities are selected.
- The Warehouse Associate utilizes order sheets to pick a wide variety of items, place and arrange items in boxes following specific instructions and arrange boxes on pallets. They assist with inventory maintenance, moving materials for current job orders, and working with receiving to verify package items.

### Customer Service Representative

- Our Customer Service Representatives accurately process customers' orders/correspondence by telephone, computer, and fax.
- They process purchase orders and expedite orders, quote prices and availability for standard parts and process formal quotes for special products. This position is data entry heavy along with customer service oriented.

# Employee Testimonials

## Melissa, Machine Operator

*(5 years at CLM)*

"I enjoy working here. I always knew what to expect and there is a great workplace culture. I have worked at some other big companies before and I never felt as cared about as I do here. Overtime is available but never mandatory, and your scheduled is pretty flexible. It's a great place to work and learn, coworkers are friendly and willing to help you, overall a good place to work."

## Arturo, Machinist

*(30 years at CLM)*

"Carr Lane is a great place to work and grow. I have been able to learn and advance my career over time from training on the job. They trust me to do my job and give me the freedom to do so."
